

# PRAZDNIKOV FYODOR

DATA-SCIENTIST

## WHY?

---

- work with BigData;
- gain experience with real data;
- get teamwork skills;
- Learn new machine learning algorithms.

## CONTACT

---

 fyodorprazdnikov17@gmail.com

 fedor.prazdnikov

## EDUCATION

---

SAINT PETERSBURG STATE  
UNIVERSITY OF ECONOMICS

## HARD SKILLS

---

- Python;
- NumPy, Scikit-learn, Pandas, Seaborn, matplotlib;
- Basic machine learning algorithms such as linear and logistic regression, decision trees, cluster analysis;
- TensorFlow, Keras;
- MySQL;
- Technical English (B1-B2);
- Linear algebra, mathematical analysis, statistics, probability theory.

## WORK EXPERIENCE

---

I have no experience in IT due to my studies. However, I have taken part in some programming contests on codeforces and all cups and also have trained on Kaggle training datasets. I am attaching a link to github ([https://github.com/Swedist/about\\_me](https://github.com/Swedist/about_me)). The internship or work as a junior developer are a great chance for me to gain experience on real data.

## ABOUT MYSELF

---

I am a 4th-year student at SPbSUE in the direction of production management. I have been studying Python and Data Science since September 2020. In parallel with my studies, I work as a climbing coach. Hobbies: rock climbing, alpine skiing, football, cs, dota.
